

## TR Spaceline

### Height Adjustable Bathtub

- 250 kg patient weight
- Extra-wide inner dimensions
- Electric height adjustment
- Scalding protection

THE TR SPACELINE is a freestanding, height adjustable bathtub designed to provide a relaxing and satisfying bathing experience. Its extra width accommodates plussize users and offers additional space for users who want to practice movement within the tub. A range of sensory features is available, including an LED lighting system, a music soundwave system with four speakers (AUX and Bluetooth), and a 12-jet air-spa system.

THE SPACELINE'S straightforward installation allows it to be placed in various central bathing areas or bathrooms. The controls are designed for ease of use, and its sleek design ensures simple cleaning and maintenance.

**FOR CAREGIVERS**, the electric height adjustment and open design help reduce strain and support ergonomic working positions throughout the entire bathing cycle.
